Instructions:
1. Fill out all information and specifications using standard components where applicable.
2. Place all desired components (outlets, filler, drain, etc.) where they are needed. Include detailed mounting brackets or studs, fan shroud & AC condenser locations.
3. The sample radiator is drawn with square tanks. If another tank shape is desired, draw this in with dotted lines. Indicate any area of the radiator where clearance may be a factor.
4. Read, fill-out, sign and date the drawing (agreement) in the customer approval signature box at the bottom of the drawing. We will call or email you to confirm to provide pricing information.
5. Once completed, fax or mail this information to Griffin Thermal Products. When transmitting via fax, please make certain that your answers & details are in BOLD ink.
